

**Proposed Irrican Raymond eBAR Battery Storage Project
Community Open House**

**Raymond & District Seniors Club, 55E 100 N, Raymond, Alberta
Thursday, November 30th, 2023 – 5:30 PM – 8:00 PM (MST)**

Irrican Power Ltd. is proposing to construct the Irrican Raymond enhanced Battery and Renewables (“eBAR”) Project approximately six kilometers south of the Town of Raymond. The facility will consist of a 15.4-Megawatt (MW) capacity lithium-ion battery storage system, connected to and located adjacent to the Raymond Reservoir Hydro Plant at the SW-30-5-20-W4 surface location. Project proponents are seeking input on the proposed Project from interested stakeholders. We invite residents in the County of Warner No. 5, Town of Raymond, Town of Magrath, and interested stakeholders to participate in our in-person community open house at the Raymond & District Seniors Club to learn more about the Project. Our session will feature detailed Project information, representatives available to answer questions about the Project, and an opportunity to provide feedback.

Please RSVP your attendance at <https://irrican-ebars.com>. To request a copy of the Project information package by mail or email, or to schedule a telephone consultation, please contact the Development Manager, dave.carscadden@tericpower.com or 403-497-6260.
